总裁致辞

Forward by the CEO

企业既是社会财富的创造者，也是社会责任的承担者。作为我国为数不多的百年企业，华新水泥一直致力于把最优质的建筑材料提供给客户，为社会创造财富，并以做全球最优秀、值得信赖和受人尊敬的企业公民为目标，全面履行企业的社会责任。

2014年，是我国经济进入新“拐点阶段”的一年。面对新形势，我们不断深化改革创新，上下齐心协力、奋力拼搏，在国内经济增长减速的背景下，仍保持业绩的稳定增长。

我们秉承“清洁我们的生活环境，提供信赖的建筑材料”的企业使命，大力推行清洁文明生产，并利用水泥窑协同处理的技术优势，为社会提供安全、可靠的环境服务。在第八届“中华宝钢环境奖”评选中，公司荣获“企业环保类优秀奖”称号，成为本届国内建材行业和湖北省内唯一荣获此殊荣的企业。

我们高度重视员工的职业健康与职业安全，着力营造浓郁的安全生产文化。公司全面落实安全生产责任制，严格执行安全生产责任追究制度，加大对安全隐患、安全违规行为的曝光和处罚，强化一线人员安全生产意识，编制维修作业安全操作规程，逐步完善安全管理体系和制度。

我们提倡华新造就人才，将员工作为人力资源看待，在制度上保障员工合法权益，在机制上引导员工全面发展。通过开展多样化、定制化培训，使员工的素质得到快速提高；实施绩效管理变革，调整员工薪酬结构，让员工共享企业发展成果。

我们不忘回报社会，牢记建造一所工厂，造福一方百姓。华新各工厂不仅是当地的纳税大户，推动当地经济发展，还通过捐赠、慰问以及开展形式多样的志愿者活动，为构建和谐社会作出了积极贡献。

我们关注客户需求，竭力为客户创造价值。通过搭建国内水泥企业首家电商平台，将遍布全国的几十家工厂、几千个客户和零售门店连接起来，让普通百姓网购水泥成为现实。

“美好的世界从我们开始”！这是我们的承诺，也是目标，更是鞭策。在充满挑战与机遇的2015年，我们将继续沿着可持续发展之路，不断探索回报社会的新途径，力争为构建更加和谐、更加美好的世界作出新的更大贡献。

Enterprise is both the creator of social wealth and the undertaker of social responsibility.

As one of the few century old enterprises in our country, Huaxin has committed to providing the best quality building materials to customers, creating wealth for the society and aiming at becoming the world excellent and respectable enterprise, performing social responsibility comprehensively.

In 2014, our country's economy entered into a new "inflection point". Facing new situation, we continuously implemented reform and innovation, cooperated together and made concerted efforts, sustained the steady growth of performance under the background of slowdown in domestic economic growth.

We hold the mission "To clean our living environment while providing reliable building materials", promote clean production and take advantage of cement kiln co-processing to provide safe and reliable environmental service to the society. In the appraisal of the eighth "Chinese Baogang Environment Reward", Huaxin got the title of "Enterprise Environmental Protection Excellent Reward", becoming the only enterprise in domestic building material industry and Hubei province that got this reward.

We pay high attention to employees' occupational health and safety, trying to build a safe production culture. Huaxin implements safety production responsibility system and safety responsibility accountability system, enhance exposure and punishment to safety risks and rules violation behaviors, enhance safety production awareness of frontline employees, compile safety operation regulation for repair operation, and perfect safety management system and regulation step by step.

We advocate Huaxin create talents, treat employees as human resources, guarantee employees legal rights by regulation, and guide employees development by mechanism. Through carrying out diversified and customized training we improve employees' quality rapidly; implement KPI management innovation, adjust payment structure, and share development results.

总裁 李叶青 CEO Li Yeqing

We won't forget to return society. A plant built should benefit the people living around. Huaxin plants are not only local large taxpayer which push forward local economic development, but also carry out volunteer activities such as donation to contribute to harmonious society contribution.

We focus customers' needs, trying to create value for customers. Through building the electronic commerce platform that is first in domestic cement enterprises, we linked together the plants, customers and retail stores, which realized online shopping cement by ordinary people.

"A beautiful world starts from us"! That is our promise, and also the target and more the spur. The year 2015 is full of challenges and opportunities. We will continue the road of sustainable development, explore new ways to return society, and make greater contribution to build more harmonious and beautiful world.

加强风险防范

Strengthen Risk Prevention

2014年，我们通过以混凝土财务共享服务中心试点项目，开展共享服务运行实践，实现混凝土业务的财务数据集中管理、财务流程标准化，更好地发挥财务集中管控、协同增效作用；通过供应商协同平台的成功上线，确保实现透明、公正的采购。

In 2014, we carry out shared service operation practice through concrete and finance share service center pilot project, realized concrete business financial data concentrated management, financial procedure standardization, to better play the role of concentrated control of finance and enhanced effect; the successful go-live of suppliers' collaborative platform ensured transparent and fair procurement.

混凝土财务共享中心上线

Concrete and Finance Shared Center go-live

截至2014年底，共有38家分子公司纳入财务共享范围，业务覆盖销售结算、采购结算、费用及总账、资金收付、月结、财务报表等方面。自从财务共享服务中心(FSSC)上线一年以来，通过流程的规范化及业务的集中化处理，发现及解决了大量业务合规性问题，降低了公司财务及税收风险；每月组织两次混凝土业务问题沟通及讨论会议，并且开设财务共享中心答疑邮箱用以解决各类内部客户问题。同时，公司还开始进行全面业务共享的可行性研究。

Till the end of 2014, totally 38 subsidiaries were included into financial share scope. The business covers sales settlement, procurement settlement, expense and general ledger, receipt and payment of funds, monthly statement financial statements. Since financial share service center (FSSC) go-live for one year, many business compliance problems have been found and solved through procedure standardization and business concentrated treatment, which lowered financial and tax risks; Concrete business problems communication and discussion meeting is held twice in a month, and set finance shared service center answering email to solve various internal customers problems. Meanwhile, Huaxin also started feasibility research of comprehensive business sharing.

供应商协同平台上线

Supplier Collaborative Platform go-live

2014年，供应商协同平台成功上线。通过在线处理业务、在线信息查询、在线传递及打印合同、订单，供应商预制发票、采购员审核等深度合作，有效促进双方沟通与交流，减少流转时间及成本，提高工作效率；通过联合采购、供应商竞价与谈判，保障了物料价格的竞争力，实现了透明、公正的采购。2014年共开展联合谈判45次，实现总部管控物资采购成本节约1680万元。

In 2014, Suppliers Collaborative Platform went - live successfully. Through online business treatment, online information inquiry, online transmission and printing contract, order, invoice, purchasing audit, we promoted effective communication between the two sides, reduced the circulation cost and time, improved work efficiency; Through joint procurement, supplier bidding and negotiation, we ensured material price competitiveness, realized a transparent and fair procurement. 45 joint negotiations were carried out in 2014, realized HQ control material procurement cost saving 16.8 million RMB.

共享服务中心的收益

The benefit of Shared Service Center

共享服务中心的建设可帮助企业从战略、价值、质量、效率角度，全面提升管理水平，给企业带来更多收益，具体实现的目标包括：
The building of Shared Service Center can help corporate to improve management level from the angle of strategy, value, quality and efficiency, bringing more benefit to corporate, specific targets includes:

风险 Risk	效率 Efficiency	价值 Value	质量 Quality	战略 Strategy
有效控制操作风险 Control operation risks effectively	不断提升管理效率和运营效率 Improve management and operation efficiency continuously	高效运作带来成本节约与优质服务 High efficiency operation brings cost saving and quality service	提供高质量的服务与信息，保证数据真实有效 Provide high quality service and information, guarantee true and effective data	支持公司战略发展目标的实现 Support the realization of company strategic development goal

环保履责

Environmental Protection

我们一直以“清洁我们的生活环境，提供信赖的建筑材料”的企业使命为引领，大力推行清洁生产，最大程度上降低生产活动给环境带来的影响；同时，利用水泥窑协同处理的技术优势，为社会提供更多的环境服务。

We have been taking the corporate mission “To clean our living environment while providing reliable building materials” as the orientation, widely implement clean production to reduce the impact of production activities to environment to the minimum; meanwhile, we take the technical advantage of cement kiln co-processing to provide more environment services to the society.

清洁生产

Clean Production

公司将清洁生产理念贯穿到生产的全过程，通过强化内部监管、降低能源和资源消耗，减少污染物和温室气体排放，实现“节能、降耗、减污、增效”。

Clean production concept runs through the whole process of production in Huaxin. Through enhancing internal monitor and reducing energy and resource consumption, we reduced pollutants and greenhouse gases emission, realized “energy saving, consumption reduction, pollution reduction, and benefits increasing”.

强化内部监管

Enhance internal monitor

2014年，公司通过常态化环境监测、环保风险评估等一系列环境监管措施，促进工厂合规经营，降低工厂运行对环境的影响。

In 2014, Huaxin adopted a series of environment monitor measures such as normalization of environmental monitoring and environment risks assessment to promote compliance operation in plants and lower operation impact to environment.

内部环境监管常态化

Internal environment monitor normalization

公司下属工厂每月利用自有监测设备对工厂污染物进行监测标定，定期评估工厂的排放状况,并通过在线监控设备，实施实时监控；根据评估、监控结果，工厂及时对生产工艺进行调整、对环保设备进行维护，实现合规排放。

The subsidiaries of Huaxin make use of own monitoring equipment to monitor plant pollutants each month, assess emission status regularly, and conduct real time monitoring through online monitoring equipment; plants realized compliance emission by adjusting production process and maintaining environment equipment in time according to assessment and monitoring result.

环保风险评估制度化

Environment risks assessment institutionalization

2014年公司出台年度环保风险评估管理办法，定期评价工厂环保风险，并对存在的风险提出改进措施，实现环境影响最小化。

Huaxin issued annual environment risks assessment management method in 2014 to evaluate plants environment protection risks regularly, and propose improvement measures to risks, which minimized impact to environment.

水管理精细化

Fine water management

2014年公司出台水管理办法，对工厂的取水、排水各环节提出要求，逐步降低工厂取排水对周边环境的影响。

Huaxin issued water management method in 2014, which proposed requirement on plant water using and discharge, gradually reduced impact of water using and discharge to surrounding environment.

推行清洁生产对标

Implement clean production benchmark

2014年公司继续推行清洁生产文明生产竞赛，实现工厂在能源消耗、污染物排放等各项指标的全面对标，以减少资源与能源消耗、污染物排放对环境的影响。

In 2014, Huaxin continues to implement clean production competition to realize energy consumption and pollutant discharge benchmark, and reduce impact of resource and energy consumption and pollutant discharge to environment.

	清洁生产审核 clean production audit	废弃物零排放 zero emission	装包无组织排放 (内部标准) package fugitive emission (internal standard)	粉尘排放 dust emission	SO ₂ 排放 SO ₂ emission	NO _x 排放 NO _x emission
2013年	29家水泥工厂 29 cement plants	50%窑线工厂 50% kiln plants	60%装包线 60% package line	100%达标排放 100% standard emission	100%达标排放 100% standard emission	100%达标排放 100% standard emission
2014年	除新建生产线外， 全部水泥工厂 all cement plants except for new lines	70%窑线工厂 70% kiln plants	85%装包线 85% package line	100%达标排放 100% standard emission	100%达标排放 100% standard emission	100%达标排放 100% standard emission

降低污染物排放 Lower pollutant discharge

公司以新的水泥工业大气污染物排放标准对标工厂，促进工厂提高污染物治理水平，实现提前合规。
Huaxin takes new cement industry atmosphere pollutant emission standard as the benchmark to plants, promote the pollutant treatment level in plants and realize compliance in advance.

NOx治理 NOx treatment

2014年，公司所有的窑线工厂均安装了SNCR（选择性非催化还原）系统，以在末端实现NOx减排的目标；同时，公司秉承清洁生产的理念，从生产工艺改造上着手，探索水泥窑分级燃烧技术，从源头降低NOx产生量。

In 2014, all Huaxin's kiln plants have installed SNCR (selective non catalyst reduction) system, to realize NOx reduction target at terminal; meanwhile, Huaxin holds the concept of clean production, starts from production process reform, explore cement kiln staged combustion technology, lower NOx generation from source.

华新（宜昌）公司加强工艺控制，提高电收尘效率，窑头粉尘排放浓度稳定控制在30mg/m³以下。
Huaxin (Yichang) Co. enhances process control, improve filter efficiency, kiln head dust emission thickness is controlled under 30mg/m³.

粉尘治理 Dust treatment

公司通过预防性维修，保证收尘器始终处于最佳运行状态，并通过执行定期清扫、清理制度降低粉尘排放。

Through preventive repair, Huaxin guarantee dust filters function in the best status, and implement regular clean regulation to lower dust emission.

华新（涪陵）公司采用先进成熟石灰石-石膏湿法脱硫工艺，利用窑尾余热锅炉收集的石灰石粉加水制成浆液作为吸收剂吸收烟气中的二氧化硫，形成的副产品石膏用作水泥粉磨原料。

Huaxin (Fulin) Co. adopt advanced and mature limestone-gypsum wet desulfurization process, making use of the limestone powder collected by kiln rear waste heat boiler added with water to be an absorbent to absorb the SO₂ from smoke, the byproduct gypsum is used for cement grinding material.

SO₂治理 SO₂ treatment

公司使用低硫煤，并通过监控生料含硫量从源头上控制SO₂的产生来源；对于SO₂排放较高的工厂，通过新上脱硫设施，降低SO₂排放对环境的影响。

Huaxin use low sulfur coal and monitor the sulfur content in raw meal to control SO₂ generation from source; as to plants with high SO₂ emission, new desulfurization facilities are installed to reduce SO₂ emission impact to environment.

无组织排放控制 Fugitive emission control

2014年，公司继续推行装包系统无组织排放控制，85%的水泥装包线已安装高效辊道清包机，达到公司内部无组织排放控制标准。并在鹤峰、襄城、郟县等公司探索装车栈台无组织排放控制的技术手段。

In 2014, Huaxin continued to implement package system fugitive emission control. 85% cement package lines have been installed high efficiency roller cleaning machine, and reached internal fugitive emission control standard. We also explore loading platform fugitive emission control technical method in Hefeng, Xiangcheng, and Yunxian subsidiaries.

改造前
Before reform

改造后
After reform

华新（鹤峰）公司通过安装装车收尘系统，收集车辆装包过程中70%的扬尘，大大降低粉尘无组织排放对环境的影响。

Huaxin (Hefeng) Co. installed loading dust filter system to collect 70% dust during package, largely lowered dust fugitive emission impact to environment.

矿山复垦 Quarry rehabilitation

公司始终坚持统筹企业发展与环境保护治理、生态效益优先与经济社会效益、社会责任与永续发展相统一的理念，按照“谁开采、谁治理”原则对已开采矿山进行分片、分段的复垦治理。

Huaxin sticks to the idea of corporate development and environment protection, ecological benefit priority and social and economic benefits, social responsibility and sustainable development, carry out rehabilitation to exploited quarry in plots and sections according to the principle "who exploit should rehabilitate".

华新（西藏）公司矿山复垦前

应对气候变化 Respond to climate change

为减缓温室气体排放对环境的影响，公司在全方位推行碳资产管理，持续实施节能减排项目的同时，提高可替代燃料利用率，降低温室气体排放。

In order to alleviate greenhouse gases impact to environment, Huaxin implement carbon asset management, energy saving and emission reduction meanwhile improve alternative fuel availability to lower greenhouse gases emission.

实施碳资产管理 Implement carbon asset management

公司出台碳资产管理办法，定义下属各生产单位的CO₂排放量核算准则，提前为全国碳交易做准备。

Huaxin issued carbon asset management method, define CO₂ emission amount accounting standard for subsidiaries to prepare for national carbon trade.

推进碳交易试点 Advance carbon trade pilot

2014年公司下属工厂积极参与湖北省、重庆市、广东省的碳交易试点工作，并以碳交易为契机，全方位的实施节能降碳。基于CSI（水泥可持续倡议组织）的水泥行业温室气体核算指南，2014年公司直接CO₂排放总量较2013年下降2%。

In 2014, subsidiaries actively participated in carbon trade pilot work in Hubei, Chongqing, and Guangdong provinces, taking carbon trade as the opportunity to implement energy saving and carbon reduction. Based on CSI (Cement Sustainability Initiative Organization)cement industry greenhouse gases accounting guideline, Huaxin's direct CO₂ emission in 2014 decreased by 2% compared with that in 2013.

持续推进能效提升工程 Continue to push forward energy efficiency improvement project

通过降低熟料烧成热耗、水泥粉磨电耗，优化余热发电运行，提升发电效率等提升能源利用效率，降低单位产品CO₂排放。By reducing heat consumption of clinker burning, power consumption of cement grinding, optimization of WHR operation, and improve power generation efficiency to improve energy efficiency and reduce CO₂ emission per unit product.

提升可替代燃料利用率 Improve alternative fuel efficiency

2014年，累计处置生活垃圾50万吨，三峡漂浮物50万方，间接减少CO₂排放约33万吨。

In 2014, totally 0.5 million tons living wastes and 0.5 million cubic floating wastes in Three Gorges were treated, indirectly reduced CO₂ emission about 0.33 million tons.

李叶青总裁说：“过去，华新是在生产水泥的同时做环保，现在是做环保的同时生产水泥。未来，华新的水泥是因环保需求而存在。”

The CEO Mr. Li Yeqing said: “In the past, we produced cement while protecting environment, but now we protect environment while producing cement. In the future, Huaxin’s cement exists for environment protection need.”

目前，华新运行和在建的环保工厂共计20家，利用水泥窑协同处置废弃物能力已达到548万吨/年，累计为社会处置了50万吨生活垃圾、10万余吨工业危废、15万吨市政污泥、50万吨污染土、50万方水域漂浮物。2014年，华新废弃物处置量同比增加42%，环保业务营业收入（不包括RDF替代收入）突破1.2亿，同比增长13%，展现了良好的增长态势。

Now Huaxin has 20 environment plants in operation and construction, the capacity of co-processing wastes by cement kiln has reached 5.48 million t/y, totally treated 0.5 million tons living wastes, 0.1 million tons industrial hazardous wastes, 0.15 million tons municipal sludge, 0.5 million tons polluted soil, 0.5 million cubic water floaters for the society. In 2014, Huaxin wastes treatment amount increased 42% year on year, environment business sales revenue (exclude RDF alternative revenue) broke through 120 million, increased 13% year on year, which showed good growth.

技术研发 Technical research

经过近十年的积累，华新环保研发团队的能力建设有了显著提高。公司第二代环保技术的成功应用，标志着公司环保技术全面推广的时机已经成熟。

With ten years accumulation, Huaxin environment protection research group's capacity is obviously improved. The successful application of the second generation environmental technology marked the ripe time for widely promotion of Huaxin's environmental technology.

2014年，华新“生活垃圾生态化前处理和水泥窑协同后处置技术创新和实践”通过了中国建材联合会的科学技术成果鉴定，专家一致认为：“整体技术达到国际先进水平，应加快推广应用”；申报了国家专利26项取得20项；发表国际论文3篇、国内有影响力论文2篇；并摘得

中华宝钢环境奖“企业环保类优秀奖”和中国建材联合会科学技术进步一等奖。

In 2014, Huaxin "living wastes ecological pretreatment and cement kiln co-processing technical innovation and practice" passed scientific and technological achievements appraisal by China Building Materials Association. Experts agreed that: "The overall technology reached the international advanced level, we should speed up the popularization and application"; 26 national patents obtained 20; published 3 international papers, 2 domestic influential papers; and won the China Baogang Environmental Award "Corporate Environmental Excellence Award" and first prize for scientific and technological progress by China Building Materials Association.

商务模式创新 Business model innovation

2014年，华新环保商务合作模式有了新的突破和进展。In 2014, Huaxin environmental protection business cooperation mode has new breakthrough and progress.

在充分利用公司水泥生产基地与当地公共资源获取订单的基础上，结合省外废弃物处置实际情况，通过借力第三方资源优势和借助当地水泥窑线资源开展商务公关，打

破了废物处置依赖本公司水泥生产线的地域性壁垒，拓展了商务合作的范围和广度。

Based on making full use of cement production sites and local government public resources to obtain orders, combine with the situation of wastes treatment outside the province, borrow third party resource and advantage and local cement kiln resource to conduct business, broke the regional barriers of depending on own cement lines for wastes treatment, expanded business operation scope and wideness.

业务发展 Business development

华新在湖北区域的环保发展布局已基本完成，省外发展也井然有序。2014年，公司环保新签约项目有5个：娄底生活垃圾处置项目、昭通生活垃圾处置项目、黄梅生活垃圾处置项目、苏州污染土处置项目、杭州污染土处置项目。其中苏州、杭州污染土业务的成功实施，标志着公司在长三角区域的开发有了实质上突破，为公司拓展福州、南通、天津等地污染土业务奠定了良好的基础，为公司未来环保业务增长提供了有力的支撑。

Huaxin has basically completed environment protection development layout in Hubei, development outside the province is also in order. In 2014, environment protection new projects are five: Loudi living wastes treatment project, Zhaotong living wastes treatment project, Huangmei living wastes treatment project, Suzhou polluted soil treatment project, Hangzhou polluted soil treatment project. The successful implementation of Suzhou and Hangzhou polluted soil business marked the substantial breakthrough development in Yangtze River Delta area, lay a good foundation for Huaxin to expand polluted soil business in Fuzhou, Nantong, Tianjin and other places, provide powerful support to future environmental protection business growth.

项目建设 Project building

2014年，公司建成陈家冲二期及鄂州、应城、南漳、信阳、攸县、珠海7个环保项目；其中信阳和鄂州2个项目投产；2014年有十堰、南太子湖、长山口3个环保项目开工建设。

In 2014, Huaxin built Chenjiachong phase II and Ezhou, Yingcheng, Nanzhang, Xinyang, Youxian, Zhuhai totally 7 environment protection projects; in which Xinyang and Ezhou projects are put into production; In 2014, there are 3 environment protection projects of Shiyan, South Taizi Lake, and Changshankou began construction.

华新鄂州生活垃圾生态处理项目开始试生产 Huaxin Ezhou living wastes ecological treatment project started trial production

华新鄂州生活垃圾生态处理工厂大门
The gate of Huaxin Ezhou Municipal Solid Waste Ecological Treatment Plant

2014年12月9日上午，华新环境工程（鄂州）有限公司生活垃圾生态处理项目开始试生产。鄂州市委常委、政法委书记胡运星率市环保局、住建局、环卫局及鄂城区相关领导，现场调研试生产情况。公司环保事业部总经理王焕忠等陪同调研。

In the morning of December 9th, 2014, Huaxin Environmental Engineering (Ezhou) Co. living wastes ecological treatment project started trial production. Ezhou Municipal Standing Committee, the committee secretary Hu Yunxing with related leaders from Municipal Environmental Protection Bureau, Bureau of Living Building, Sanitation Bureau, and Echeng region to carry out onsite investigation of trial production. Wang Huanzhong, general manager of Huaxin's Environment Protection BU and related people accompanied the investigation.

鄂州市生活垃圾生态处理项目位于鄂州市燕矶镇百洪村，项目总投资约8000万元，占地46亩，设计日处理生活垃圾500吨。该项目利用华新水泥窑协同处理城市生活垃圾的特有生产工艺，具有处置过程“稳定化、无害化、资源化”优势，将改善城市生活环境和提高居民生活质量。Ezhou living wastes ecological treatment project is located in Baihong village Yanji town, Ezhou city. Total investment of the project is about 80 million RMB, covers an area of 46 acres, designed capacity is 500 tons/day of living wastes. The project take advantage of the special production process of cement kiln co-processing of city wastes, having advantage “stability, harmlessness, resourcefulness” in treatment course, which will improve city living environment and living quality of residents.

华新水泥窑协同处置娄底生活垃圾项目正式签约

Huaxin cement kiln co-processing of Loudi living wastes project signing ceremony

2014年9月30日上午，公司与娄底市城管局签订了《娄底中心城区生活垃圾处置协议》，这是继株洲县、攸县项目之后，公司在湖南省第3个正式落地的水泥窑协同处置城市垃圾环保项目。

In the morning of September 30th, 2014, Huaxin signed "Loudi Downtown Area Living Wastes Treatment Agreement" with Loudi Urban Management Bureau, which is the third cement kiln co-processing of city wastes project in Hunan province after Zhuzhou county and Youxian county.

娄底市人大副主任赵应良，市政府副秘书长林有良和该市相关部门负责人，以及公司助理副总裁梅向福等出席了签约仪式。娄底生活垃圾项目日处理规模设计为

600吨，项目建成后，每年可处置生活垃圾约20余万吨，娄底100%的生活垃圾将得到无害化、资源化、彻底化处理，将大大加快“青春娄底、生态娄底、卫生娄底”的建设步伐。

Loudi city's deputy director Zhao Yingliang, municipal government deputy secretary Lin Youliang and heads of relevant departments, and Huaxin's assistant vice president Mei Xiangfu attended the signing ceremony. It is reported that Loudi living wastes project daily treatment scale is designed 600 tons, the annual wastes treatment is about 0.2 million tons after completion of the project. 100% of Loudi's living wastes will get harmless, resourceful, and thorough treatment, which will quicken "youthful Loudi, ecological Loudi, and health Loudi" building pace.

华新在云南省首个“城市生活垃圾生态处置项目”落户昭通

Huaxin's first "City Living Waste Ecological Treatment Project" in Yunnan settled in Zhaotong

2014年8月18日，公司副总裁柯友良代表华新与昭通市昭阳区人民政府签订了《华新水泥昭通城市生活垃圾生态处置项目合作协议》，这标志着华新在云南省的首个城市生活垃圾处置环保项目正式落户昭通。

August 18th, 2014, vice president Ke Youliang represented Huaxin and Zhaotong Zhaoyang District People's Government to sign "Huaxin Cement Zhaotong City Living Waste Ecological Treatment Project Cooperation Agreement", which marked Huaxin's first city living waste treatment environment project settled in Zhaotong.

昭通环保工厂设计建设规模为日处理城市生活垃圾1000吨，分两期建设（一期500吨、二期500吨），工程总投资1.3亿，其中一期投资8100万。项目将采用华新水泥城市生活垃圾生态前处理技术和水泥预分解窑协同后处置系统工艺，为昭通市生活垃圾处理提供“减量化、无害化、资源化”的解决方案，实现经济、社会、生态文明可持续发展。

Zhaotong Environment Protection Plant designed daily capacity is 1000 tons of living waste, built in two phases (phase I 500 tons, phase II 500 tons), total investment 130 million RMB, in which phase I investment is 81 million RMB. The project will adopt Huaxin Cement city living waste ecological treatment technology and cement pre-calciner kiln co-process treatment process, providing "reduction, harmless, and resourceful" plan for Zhaotong living waste treatment, realized economic, social, and ecological sustainable development.

由全国人大环资委、全国政协人资委、环保部等11部委组织的第八届“中华宝钢环境奖”颁奖典礼于5月13日在北京人民大会堂举行，华新水泥荣获“企业环保类中华宝钢环境优秀奖”称号，成为本届国内建材行业和湖北省内唯一荣获此殊荣的企业。

The eighth "China Baogang Environmental Protection Award" ceremony organized by National People's Congress, the CPPCC National Human Resources Committee and Ministry of Environmental Protection was held on May 13th in the Great Hall of People in Beijing, Huaxin Cement got the title of "Enterprise Environmental Protection China Baogang Environmental Excellence Award", becoming the only enterprise that won the honor in domestic building material industry and Hubei province.

“中华宝钢环境奖”是我国环境保护领域综合性的最高社会性奖项。本次评选工作从2013年5月正式启动，主题为“推动绿色循环，建设美丽中国”，中国水泥协会推荐了

5家水泥企业参与“企业类”评选，最终公司从全国众多参评单位中脱颖而出，成功入围该奖项。公司助理副总裁、环保事业部总经理王焕忠代表公司上台领奖。颁奖仪式后王焕忠接受了各大媒体专访，新浪微博对整个颁奖仪式进行了微直播。

China Baogang Environment Prize" is the highest award in the field of social comprehensive environmental protection in China. The selection work was officially started from May 2013, the title is "promoting green recycle, and build a beautiful China". China Cement Association recommended 5 cement enterprises to participate in the "enterprise class" selection, and finally Huaxin came out on top from the many participants, successfully nominated for this award. Huaxin's assistant vice president and general manager of Environment BU Wang Huanzhong accepted the reward on behalf of the company. After the ceremony Wang Huanzhong accepted interview from major medias. Sina micro-blog broadcasted the whole ceremony.

安全履责 Safety

2014年，公司强调以“聚焦人”为载体，不断加强基础安全管理工作，努力提高安全业绩，推动公司安全发展。

In 2014, Huaxin emphasized “focus on people” as the carrier, continuously enhance basic safety management work, try to improve safety performance, advance safety development in Huaxin.

成立“职业健康与安全管理部”

Establish “OH&S department”

公司在2014年将原隶属于战略与发展中心的社会责任部重新调整，成立了隶属于总裁办公室的职业健康与安全管理部，强化职业健康和安全管理职能，强化从总部到事业部安全总监，再到各工厂专职安全管理人员的安全管理体系。

In 2014, Huaxin restructured the CSR department that affiliated to Strategy and Development Center, established occupational health and safety management department under the command of CEO office, enhanced occupational health and safety management function, enhanced safety management system from HQ to safety supervisor in BU, then to full-time safety management people in plants.

职业健康工作

Occupational Health Work

2014年公司各工厂继续大力开展职业健康相关工作，一是做好职工的职业健康体检工作，把职工的职业健康体检作为一项常态化的工作来抓，确保每位员工都按工作性质进行定期职业健康体检。

In 2014, plants of Huaxin continued to carry out occupational health work. One is do well employees occupational health physical examination work as a routine work, ensure every employee receive regular occupational health examination as per work nature.

二是做好职业场所的职业危害因素的检测工作。公司要求在做好职工体检的同时，必须同时做好职业场所的危害因素的检测工作，检测不达要求的，进行收尘、降噪的整改，确保职工工作的场所危害因素达标，以保障职工的身心健康。

Two is do well occupational hazard factors inspection work. Huaxin requires do well physical examination and hazardous factors inspection at the same time. Those inspected cannot reach standard, should receive dust filter and noise reduction rectification, to ensure work place hazardous factors reach standard and employees health.

三是开展职业健康现状评价工作。按照《职业病防治法》的要求，以职业病防治为主线，对职业健康进行综合现状评价，努力做好职工健康工作。

Three is carrying out occupational health status assessment work. Conduct comprehensive status assessment of occupational health with occupational disease prevention as the main line according to “occupational disease prevention law” .

2014年公司下属各水泥工厂均开展了职工的职业病体检工作和职业场所危害因素检测工作，职业健康现状评价已有33家工厂通过验收，有50家工厂正在进行。

In 2014, Huaxin's cement plants all carried out occupational disease physical examination work and work place hazardous factors inspection work, 33 plants passed acceptance of occupational health status assessment, 50 plants are under the assessment.

安全管理

Safety Management

在做好水泥生产业务安全的同时，努力做好其它业务单元的安全工作

Do well safety in cement production business, meanwhile do well safety work in other business units.

2014年公司针对不同于水泥业务的混凝土骨料业务和环保处理业务，组织专业人员编写了《混凝土骨料岗位安全手册》、《环保业务岗位安全手册》，以指导各新兴业务员工识别安全风险，减少作业过程安全事故的发生。In 2014, aimed at concrete aggregate business and environment treatment business different from cement business, Huaxin organized special personnel to compile “concrete aggregate position safety pamphlet”, “environment protection business position safety pamphlet”, to guide new business employees recognize safety risks, reduced safety accident during operation.

2014年公司开展了设计安全和建筑结构安全检查评价工作（DSCQP），针对矿山、混凝土建筑物、钢结构物的安全风险进行了一次系统检查，共检查出了高风险70条，中等风险154条，并有针对性制订了相应的整改和控制措施。截止到2014年底，有57条高风险经整改和控制后已消除或降低了风险等级。

In 2014, Huaxin carried out design safety and building structure safety inspection and assessment work (DSCQP), carried out a systematic inspection on safety risks in quarry, concrete building, and steel structure, totally found out 70 high risks, 154 middle risks, and made corresponding rectification and control measures. By the end of 2014, 57 high risks have been eliminated or lowered risk level after rectification and control.

大力实施“安宏”项目、“事故预防机制矩阵（FPE矩阵）”项目和隔离加锁项目等安全改进项目

Implements “Anhong” project, “fatality prevention element matrix (FPE matrix)” project and isolation & lockout project

针对维修作业中易发生安全事故的特点，推广实施了“安宏”项目，就是组织编写维修检修安全操作标准，共制定机械、电气和工艺三个专业712个检修清单，对维修检修中的安全风险进行针对性的识别和防范，项目成果填补了公司维修作业安全管理工作的空白。

According to the feature that safety accident is easy to happen in repair job, Huaxin promoted the implementation of “Anhong” project, which is the compile of repair and maintenance safety operation standard, totally made 712 maintenance lists of mechanical, electrical and process professions, carrying out identification and prevention of safety risks in repair and maintenance, the project result filled the blank of repair job safety management work.

公司在2014年参照豪瑞公司的事故预防机制（FPE）推行了《车辆与交通安全手册》（FPE3）、《电力安全管理手册》（FPE4）。并开展FPE安全矩阵的试点推广工作，以扼制重大事故的发生。

In 2014 Huaxin consulted Holcim’s fatality prevention element (FPE) to develop “vehicle and traffic safety pamphlet” (FPE3) and “electrical safety management pamphlet” (FPE4). Huaxin also carried out FPE safety matrix pilot extension work to contain happening of major accident.

公司在2014年全面推行隔离加锁制度，从原来的停电挂牌制度转变到更先进更安全的隔离加锁制度，使安全真正掌握在员工自己手上。目前已有73家工厂实施了隔离加锁制度，有11家工厂正在进行采购锁具、培训等实施前的准备工作。

In 2014, Huaxin widely implemented isolation & lockout system, changed from the original stop power hang plate system to more advanced and safe isolation & lockout system, making safety really held in employees’ own hands. Now 73 plants have implemented isolation & lockout system, 11 plants are procuring locks and doing training to prepare for implementation.

安全管理驾驶舱系统（INX系统）上线运行 Safety management system (INX system) go-live

公司为了进一步提高安全执行力，需建立一个好的系统工具帮助安全管理工作，借鉴豪瑞集团在澳大利亚和新西兰的安全管理系统经验，着手在华新现有的系统平台上自主开发一套INX安全管理系统，以通过这套安全管理系统加强各项安全措施的执行力度、提高安全信息透明度、帮助各级管理人员进行安全管理、改善分析和报告的质量。这套系统于10月份正式上线运行，目前运行状况良好。

In order to further improve safety implementation, Huaxin need to build a good systematic tool to help safety management work, borrow Holcim's safety management experience in Australia and New Zealand, develop a set of INX safety management system based on Huaxin's existing system platform, to enhance implementation of safety measures through this safety management system, improve the transparency of safety information, help management personnel of each level to carry out safety management, improve analysis and report quality. The system go-live formally in October, now the operation is good.

公司持续开展安全培训工作 Huaxin carry out safety training continuously

公司在2014年推行“安全落地培训计划”，培养和提升基层班长、工人安全意识和安全技能，以进一步改善公司安全业绩，全年共有1357名班长接受了安全落地培训，有98819人次的员工参加培训，培训率达到了100%。平均培训时间达到了10分钟/人·周。

In 2014, Huaxin implemented “safe landing training plan” to cultivate and improve safety awareness and skills of grass-root monitors and workers, further improve safety performance of the company. A total of 1357 monitors received safe landing training this year, a total of 98819 employees participated in the training. The training rate reached 100%. The average training time reached 10 minutes/person · week.

公司总部以邮件形式发送周安全时刻，将各种事故案例在全公司各单位进行共享，起到安全警示和安全培训的作用，全年共发布安全时刻37期。

Huaxin HQ send weekly safety moment in emails to share accident cases in the whole company, which play the role of safety warning and safety training, totally issued 37 safety moments in the whole year.

公司定期开展安全资质培训、安全管理培训，以提高安全管理人员的能力和素质，全年对执行总经理、生产副总经理、矿山部长、安全部长、专职安全员等安全管理人员的培训共278人次。

Huaxin carries out safety qualification training and safety management training regularly to improve ability and quality of safety management personnel, totally 278 people including executive manager, production manager, head of quarry department, head of safety department, and full-time safety personnel have received training in a year.

黄石分公司荣获“湖北省首届十佳安全生产示范企业”荣誉称号
Huangshi Branch got the title of “Hubei first top ten safety production demonstration enterprise”

11月17日下午，为期5个多月的“湖北省首届十佳安全生产示范企业”大型公益活动评选结果揭晓，黄石分公司荣获湖北省首届“十佳安全生产示范企业”荣誉称号。
In the afternoon of November 17th, “Hubei first top ten safety production demonstration enterprise” large public welfare activity announced the selection result, Huangshi Branch got the Hubei’s first “top ten safety production demonstration enterprise” title.

此次评选活动是由湖北省安监局、总工会、煤监局、湖北日报传媒集团、湖北广播电视台联合举办，经过基层推荐、相关部门审核把关、初选公示、媒体宣传、社会投票、专家组和评审组投票最终确定。

The selection activity is jointly organized by the Hubei Provincial Work Safety Supervision Bureau, the General Union, Coal Supervision Bureau, Hubei Daily Media Group, and Hubei TV Broadcasting, through recommendation from grass-root, checked by relevant departments, primary publication, media publicity, social voting, expert group and review group voting to determine the final result.

近年来，黄石分公司始终把安全生产作为回报员工的最大福利、企业生产经营的生命线，坚持“安全第一，预防为主，综合治理”的方针，从强化目标管理、加强安全监督，注重

安全细节、开展隐患排查、加强应急管理、抓好安全教育、加大安全投入、开展安全宣传等方面狠抓安全生产工作。同时，该公司安委会每年年初召开工作会布置任务，季度进行工作总结，定期分析研究重大安全生产问题，定期组织不同形式和内容的安全大检查，及时消除隐患，保证了公司生产经营的持续、健康和稳步的发展，连续四年获得“湖北省安全生产红旗单位”荣誉称号。

In recent years, Huangshi Branch always take safety production as the biggest welfare to return employees, and the lifeline of production and operation, adhere to the policy of “safety first, prevention crucial, comprehensive treatment”, pay close attention to safety production from strengthening target management, safety supervision, safety details, risks investigation, emergency response management, safety education, safety input, and carry out safety propaganda. Meanwhile, safety committee of the company hold work meeting every year beginning to assign tasks, and summary work quarterly, and regular analysis and research of major safety production problems, and organize safety production inspection of different forms and contents, eliminated hidden risks in time, to ensure continued, healthy and steady development of production, getting the title “Hubei production safety red flag unit” for four consecutive years.

湖南水泥事业部关注营销人员安全积极开展“湘营安全锁”项目
Hubei Cement BU pay attention to the safety of sales personnel, actively carry out “Xiangying Safety Lock” project

湖南水泥事业部“湘营安全锁”项目第一次将营销人员的安全规范，特别是交通安全列入日常考核，对业务员的安全装备、开车前、行车中、停车后等四个方面进行安全加锁，通过工厂普查、事业部抽查的方式，考核业务员安全销售工作，发现一起违规就进行管理处罚，使安全管理纳入到营销人员的日常管理中来。

Hunan Cement BU “Xiangying Safety Lock” Project listed safety regulation of sales personnel, especially traffic safety into the routine assessment for the first time, carried out safety lockout to four aspects of safety equipment, before driving, in driving, and after parking, take the way of general survey in plant and spot check in BU to assess salesman’s safety sales work, giving punishment once find violation, bringing safety management into the routine management of sales personnel.

此项目得到了总部职业健康与安全管理部、湘潭交警大队和湘潭晚报等单位的支持，湖南事业部营销总监、安全总监在试点工作总结会上公布了事业部抽查结果，并表示2014年经过在湘钢及长株潭片区的试运行，业务员安全意识大幅提升，每个营销业务员出行前都在车上配备好灭火器、反光警示牌和安全帽、安全鞋等安全装备，严格遵守公司《交通安全承诺书》及国家新交通安全法，展示了良好的企业形象。

The project received support from HQ OH&S department, Xiangtan Traffic Police Brigade and Xiangtan Evening News. Hunan BU marketing director and safety director published the sample result in pilot work meeting, and said that in 2014 after trial operation in Xiangtan Iron and Steel and Changsha, Zhuzhou, and Xiangtan area, safety awareness of sales personnel is greatly improved. Each salesman is well equipped with fire extinguisher, reflective warning signs, safety helmet, and safety shoes in the car before the trip, strictly comply with “Traffic Safety Commitment” and national new traffic safety law, to show good enterprise image.

湖南水泥事业部还将全面总结“湘营安全锁”项目试运行中的经验和不足，在2015年全面推广此项目，切实保障营销人员安全。

Hunan Cement BU will also summarize the experience and deficiency from trial operation of “Xiangying Safety Lock” Project, comprehensively promote the project in 2015, to effectively protect the safety of sales personnel.

襄阳公司举办职业健康安全讲座增强员工自我防护意识
Xiangyang Company held occupation health and safety lecture to enhance self-protection awareness of staff

襄阳公司请专家进行职业健康培训
Xiangyang Co. invited expert to give occupational health training

为提高广大员工对职业健康安全的认识和自我防护意识，预防和减少职业病危害，5月28日下午2点，襄阳公司特邀请襄阳市职业病防治医院的赵银国主任，为广大生产一线员工进行职业健康安全知识讲座。矿山分厂、熟料分厂、水泥分厂以及维修部等各一线岗位员工共计50余人参加了学习。

In order to improve staff’s recognition and self-protection awareness of occupational health and safety, prevent and reduce occupational diseases, in May 28th 2:00pm, Xiangyang Company invited Zhao Yinguo, director of Xiangyang Occupational Disease Prevention and Treatment Hospital to give occupational health and safety knowledge lectures to frontline employees. Totally 50 frontline employees from quarry branch, clinker branch, cement branch and repair department participated the learning.

赵银国主任向员工们深入浅出地讲解了职业健康安全方针目标和法律法规、主要危险品基础知识、常见危险性作业的防护措施、常见职业病危害的自救与互救、紧急情况的应急预案，并结合襄阳公司各岗位职业病危害因素进行了科学、深入地分析。同时，他还要求襄阳公司各生产一线部门要密切配合，加大现场检查力度，从源头上杜绝职业病隐患，让员工自觉做好日常防护，建立群防机制。培训会上，员工们聚精会神听讲，一丝不苟做笔记，获得了较好的培训效果。最后，参加培训人员还接受了现场测

试，以加深对职业病健康安全知识的理解。Director Zhao Yinguo taught employees occupational health and safety policys and laws, basic knowledge of main dangerous items, preventive measures for common dangerous jobs, self-help and mutual help of common occupational disease, emergency response plan, and did scientific and deep analysis according to the occupational disease harm of different positions in Xiangyang Company. Meanwhile he requires that frontline departments should cooperate closely to enhance on-site inspection, eliminating occupational disease risks from source, asking employees to do well routine protection and building group prevention mechanism. Employees concentrated their attention and made notes in the training, obtained good training effect. Finally, participants also received on-site testing to enhance understanding and grasp of the knowledge.

此次培训是体现以人为本，关爱员工身心健康的一项重要举措，得到了大家的一致赞誉。通过此次活动的开展，公司广大员工充分认识到加强作业过程中的职业健康防护的重要性、必要性和自觉性，同时也提高了广大员工对职业病危害的自我保护意识，夯实了公司安全生产的防护堡垒，促进了企业持续健康发展。

支援灾区
Disaster area relief

地震救灾行动 Earthquake disaster relief

2014年8月3日16:30，云南省昭通市鲁甸县发生里氏6.5级地震，造成大量人员伤亡和巨额财产损失。地震发生后，华新昭通公司一方面积极应对地震，确保工厂人员、生产安全，另一方面积极组织骨干员工、民兵应急分队组成志愿者团队40余人，奔赴昭通机场，协助搬运救灾物资，全力支援鲁甸地震灾区。志愿者们到达机场后，在机场救灾物资搬运管理方的统一协同指挥下，迅速加入搬运队伍当中，经过三个半小时的奋力拼搏，数十吨大米、面粉、方便面、药品、衣物、棉被、矿泉水被搬上转运车，再从车上搬至直升飞机上。

There was a class 6.5 earthquake in Ludian county, Zhaotong City, Yunnan province at 16:30 on August 3rd, 2014, causing lots of casualties and major loss of property. Huaxin Zhaotong Company not only tried to ensure the safety of staff and production, but also organized over 40 volunteers to help carrying disaster relief materials in Zhaotong airport. After 3.5 hours' hard work, several tons of rice, wheat flour, instant noodles, medicines, clothes, quilts, mineral water were carried to the helicopter.

2014年12月份，昭通公司和东川公司志愿者们深入巧家县包谷脑、新店、小河等原地震重灾区，对当地受灾户展开慰问活动，赠送了600套保温杯，得到了受灾户村民们的一致好评。

In December 2014, volunteers from Zhaotong Company and Dongchuan Company came to the major disaster area of last time earthquake, to extend their regards and send 600 vacuum cups to people there. Their actions were highly praised.

关爱留守儿童

Care for the stay-at-home children

“小朋友，暑期没有家长陪伴是不能结伴到河边、水库游泳的，看似平静的水面下，可能隐藏着急流和漩涡”、“湿手不能摸电器，遇有家用电器着火，应先切断电源再救火”，8月份以来，襄阳公司志愿者们走进结对帮扶的南背村，积极开展“集中关爱假期留守儿童”活动，义务为他们讲解暑期安全知识，并为每人送上了《中小学生自救自护实用手册》，受到了孩子和家长们的一致好评。

Since August, volunteers from Xiangyang Company explained safety knowledge in summer holidays and send Students' Manual for Self Protection and Save to stay-at-home children in a local village. They told them "There may be torrent and whirlpool under the quiet water so you can't swim without the accompanying of parents.", "Electrical appliance can't be touched by wet hands. Cut off the power first in case of a fire on electrical appliance."

每当暑假来临之际，留守儿童的安全问题成了社会最关注的话题，令留守儿童父母最担心的同样是孩子们暑期的安全问题。公共关系与社会责任部在2014年7月份精心设计和编制了《中小学生自救自护实用手册》，策划了“集中关爱假期留守儿童”主题的志愿者活动，公司旗下的工厂将《中小学生自救自护实用手册》发放至工厂周边村落和社区的留守儿童、中小学

新棉衣温暖藏童

New cotton clothes warming Tibet children

12月5日，山南地区浪卡县卡龙乡小学的200多名孩子们穿上了西藏公司驻村工作队特定定制的藏式爱心棉衣。浪卡县卡龙乡小学海拔在4500米左右，目前学校现有12个教学班，在校学生200名，由于地处高海拔地区，当地农牧民生活都比较贫困，没有多余的钱为孩子置办冬衣。12月的西藏正处于隆冬季节，温度在零下7至8℃，孩子们依然穿着秋季单薄的校服。西藏公司第四批驻村工作队了解情况后，就与当地乡政府取得联系，在乡政府的协助下，西藏公司第四批驻村工作队出资13000元，在当地的一家棉衣店特定定制了200套藏式新棉衣，让孩子们温暖的度过一个冬天。

生手中，志愿者们每到一处都进行了现场宣讲，让学生们掌握安全避险知识，提高自护自救能力。目前，该手册已发至50个社区和25所学校的留守儿童和学生手中。

Whenever the summer holidays coming, the safety of stay-at-home children becomes a society concern as well as the parents' worry. In view of this, the Public Relations and Social Responsibility Department of Huaxin well designed and compiled Students' Manual for Self Save and Protection. Volunteers from plants explained and publicized the knowledge on site and the manuals have been distributed in 50 communities and 25 schools.

On December 5th, more than 200 children in Kalongxiang school of Shannan area worn the Tibet style cotton clothes customized by Huaxin Tibet Company. Located on the elevation of 4500 meters, people there were poor and can't afford winter clothes for the children, who had to wear thin clothes even in the negative 7℃ or 8℃ in December. Upon knowing the situation, the fourth batch of work team from Tibet Company stationing in the village contacted with the local government and contributed CNY 13,000 to customize 200 sets of cotton clothes for children.

关爱孤寡老人

渠县公司到福利院慰问老人
Quxian Co. visited the old at welfare house

12月6日上午，渠县公司组织公司舞蹈队的女职工利用周末时间到敬老院开展关爱孤寡老人活动，给老人们带去了欢乐。一到敬老院，女职工志愿者们便对老人们嘘寒问暖，为了让老人们中午能吃上新鲜的饺子，她们顾不上休息，各自洗完手后，便将提前准备好的包饺子要用的材料分放到桌面上，开始包起饺子来。在包饺子的过程中，志愿者们还不时地相互交流着饺子不同包法的经验。随后，又给老人们跳起了广场舞，随着一首首优美的舞曲响起，整个敬老院洋溢着欢乐的氛围。

On the morning of December 6th, the women staff of Quxian Company spent the weekend time to visit people in Old People's Home. They asked their feelings and made dumplings for them. After that, volunteers played public square dancing for the old people. With the beautiful dance music, the Old People's Home was full of joy.

爱心助农忙

郴州公司助农采摘葡萄
Chenzhou Co. help farmers to pick grape

8月8日上午，天空下着毛毛雨，郴州公司志愿者们前往周边顶上村果农家帮忙采摘葡萄。顶上村是郴州地区有名的葡萄种植区域，近日迎来了葡萄丰收的季节，但顶上村六组村民杨大伯家里却没有帮忙人手。志愿者们在他的带领下来到了葡萄园，听了杨大伯的简要介绍挑选和采摘葡萄的方法后，就开始帮忙采摘了。雨越下越大，志愿者们的鞋和裤腿也全都被地上的草打湿了，但是看着一筐筐的收获，心里甜滋滋的。此次活动的开展，不仅拉近了村企之间的关系，也让志愿者们体会到了收获的喜悦。

Though there was little rain on August 8th, volunteers from Chenzhou Company still came to help picking grapes for uncle Yang who were alone without helpers in his family. The heavier and heavier rain made the volunteers' shoes and clothes wet, but seeing the harvest, they felt sweet in the heart.

帮助困难村民

Help with people in difficulty

秭归公司帮助村民修路
Zigui Co. help villagers to pave road

12月9日，秭归公司组织20余名志愿者为周边村民扩宽及修复破损的道路。这条道路是郭家坝村通向附近村民橙子地里的重要交通要道，是一条老式的农村泥土路，保障着本村几十户村民橙子的运输。受冬季频繁的雨雪天气影响，该公路出现积水积泥现象，部分路基垮塌，严重影响村民正常出行。秭归公司领导了解到这些情况后，同郭家坝村村委会充分沟通，组织公司志愿者们准备公路的修复工作。当日上午，秭归公司熟料分厂出动了一台铲车，协同志愿者及该村几位村民合力对这条泥土路进行路基维护及路面铺石。经过了4个多小时，一条漂亮的乡村公路恢复了原貌，村里的大爷大妈们都为志愿者们的善举竖起了大拇指。

On December 9th, Zigui Company organized over 20 volunteers to widen and repair the damaged road, which was an unpaved road connecting the village and orange fields. Due to the rain and snow in winter, the road was waterlogged and broken down, impacting the normal travelling of people seriously. Upon knowing the situations, Zigui Company contacted the local government to communicate the repair work. A forklift was provided. Volunteers and some villagers enhanced the roadbed and paved the road together. After 4 hours' hard work, a beautiful road was seen by people, who praised Huaxin's action very much.

美化社区环境

Beautify the community

近期气温下降，市区道路两旁落叶纷纷，影响了石料山社区环境卫生。11月21日，黄石分公司10余名志愿者在该社区居委会工作人员的带领下，清扫落叶和垃圾。居民楼下的花坛里、小沟壑内，志愿者都一一清扫，不放过任何一个死角，经过两个多小时的清扫，共清理落叶三车、垃圾四车；11月23日，黄石分公司志愿者们又来到社区，拿着铁铲，提着粉刷桶，采取用“双手撕、铁铲刮、涂料粉刷”等办法，对社区内的电线杆、楼道墙壁等处的“牛皮癣”进行清理。经过志愿者的努力，小区里“牛皮癣”比较严重的居民楼换了新颜。志愿者们用自己的实际行动呼吁大家爱护家园，深受居民们的好评。

The more and more fallen leaves impacted the environment of Shiliaoshan Community, so on November 21st, over 10 volunteers from Huangshi Company helped to clean the fallen leaves and wastes under the lead of the community committee. Without ignoring any dead corner, they cleaned 3 trucks of fallen leaves and 4 trucks of wastes. Two days later, they come to the community again to clean the paper slips on the electric poles or walls with the shovels and painting tools prepared by themselves. The community had a new face. By setting the good example, the volunteers appeal people to love their own home.
